### SPAIN HAS ACQUIESCED

Agrees to Peace Conditions of President McKinley,

FINAL AGREEMENT TO BE MADE AS SOON AS POSSIBLE

Washington, Aug. 8—Special—The reply of Spain to the president's conditions of peace is not wholly satisfactory, although apparently unequivocal. It lacks straightforwardness in some particulars—is Spanish, in short, which means that the dons will have to be nailed down to the course of action clearly set forth in the president's note. The greatest care will be used in drafting the final articles of peace so that there will be no loophole through which escape from the consequences of the war may be made. The administration has been forewarned of the devious ways of Spanish diplomats, and will take greater precautions in this matter than would be necessary in dealing with any other nation. The bond when finally signed will be complete and unequivocal in its every detail.

Paris, Aug. 8—Special—The Spanish ambassador this morning presented to the French minister of foreign affairs, M. Del Casse, Spain's reply to the peace terms of the United States, which was subsequently cabled to Washington.

#### Not Yet Received.

Washington, Aug. 8—Special—At the French embassy it was stated that Spain's reply had not been received. A long cable was received this morning, but the embassy official was not expected to reply.

Washington, Aug. 8—Special—At 2 o'clock nothing further had been received from Spain, but there is a feeling among the higher officials that the terms of the United States have been unconditionally accepted. The final answer is expected tonight or tomorrow.

### United States Peace Commissioners

New York, Aug. 8—Special—A Washington special to the Herald says the names of Secretary of State Day, Ambassador Porter, Senator Allison and Justices Harlan and Brown, of the United States supreme court, are among those likely to be selected as peace commissioners. It is believed at least three of these will be selected.

Washington, Aug. 8—Special—The president is said to feel so certain that Spain has accepted the terms submitted by him that he is seriously considering the peace commissioners he will name soon. Ex-President Harrison is being boomed as one of them.

#### The Future of Secretary Day.

Washington, Aug. 8—Special—Should Judge Day become one of the peace commissioners he may retire from the state department, and according to an authority, after the conclusion of his labors in Paris, may resume the practice of law in Canton, Ohio. Gossips have it that Attorney General Griggs may be promoted to the state department.

#### No Water at Montauk Camp.

New York, Aug. 8—Special—Much trouble is being experienced in getting the camp at Montauk Point ready for the troops coming from Santiago. One hundred diggers have been sinking holes in the vicinity of the camp, but not a drop of water has been found.

#### Difficulties Feared.

Madrid, Aug. 8—Special—El Liberal this morning says of Spain's reply to the American peace conditions: "Certain passages may lead to the exchange of cable messages of a critical nature, possibly creating fresh difficulties."

#### Signal Corps For Porto Rico.

Chattanooga, Aug. 8—Special—A signal corps, consisting of 131 expert telegraphers, left for Newport News this morning, where they will embark with Gen. Wade.

#### Gen. Poland Dead.

Asheville, N. C., Aug. 8—Special—Brig.-Gen. John S. Poland, who was brought to Asheville last week dangerously ill with typhoid fever contracted at Santiago, died this morning.

GRIMES' BATTERY IN ACTION.

A New York Herald artist sketched Grimes' battery while it was in action at Santiago and owing to the old style powder used was able to show little more than smoke and the men of the battery running about. This same smoke revealed the battery to the Spanish gunners and many an American was killed who would be alive today had the United States been supplied with smokeless powder when the war began.

#### STABBING AFFRAY SATURDAY NIGHT

JAMES MACKIN GETS A KNIFE THRUST FROM E. PORTER

The Wound Is In a Dangerous Place And May Prove Fatal—The Quarrel Arose Over a Young Woman's Attention—Porter Has Been In Trouble Before.

Edgar Porter and James Mackin, both of this city, were the participants in a stabbing affair last evening that may prove serious. Mackin is the victim, and with a gash two inches long and two inches deep located on his left side between the hip bone and the lower rib, he lies on a bed of pain at his home at the corner of Milwaukee and Jackson streets.

Porter, who is said to have done the stabbing, is occupying a cell in the Brock county jail. The trouble is said to have been over a girl who resides in Whitewater.

A Woman in the Case Saturday evening the young lady in question was on the streets of Janesville in company with Porter, and all seemed to go well till they met Mackin. It is claimed that when the three came together Mackin made some remark to the Whitewater girl that was in the nature of a love message, and that Porter, on hearing of it was anything but pleased. Last evening about 7 o'clock the two young men came together near the Court Street bridge, and after the exchange of a few hot words, the flying of fists followed, and in the melee Mackin all at once threw up his hands exclaiming that he had been stabbed. The injured lad was soon assisted to his feet and removed to his home.

Tried to Escape Porter, after making the discovery that the affair was a serious one, lost no time in making for his Jackson street home. Chief Hogan and Officers Appleby and Brown took up the hunt, and soon after the fight Porter was arrested.

Drs. Gibson, Pember and St. John who were called to attend Mackin found a badly injured lad. The large blade of a jack knife had made a clean cut into the abdominal cavity. The chances favor his recovery.

Porter at the jail today anxiously inquired as to the condition of Mackin and stared to the police that he did not stab him but that Mackin must have fallen on his own knife. Little reliance is placed in his story and the chances are that Mr. Porter will not be free again for some time to come.

The prisoner has been in trouble before and was recently the defendant in an assault and battery case.

James Mackin, the injured boy is the son of Mr. and Mrs. Thomas Mackin. Both participants are under twenty one years of age.

#### DIDN'T LIKE THE EPITHET.

Mrs. Elser Resented Being Called a Sow by Her Former Husband.

When Charles Elser, of this city, called his divorced wife an old sow he didn't realize that he would soon be in the clutches of the law.

Mrs. Elser appeared in the municipal court this morning as complaining witness in the entitled action of the state of Wisconsin vs. Charles Elser. She stated that she was divorced, but in spite of this fact her once faithful love took recent occasion to call her an old sow, and that she didn't intend to stand any such insult. The case was adjourned till August 15 at 9 o'clock.

#### PUTTING ON AN IMPROVED ASPECT

CHANGES BEING MADE IN THE OPERA HOUSE.

All the Effects Of Wear and Tear Will Soon Disappear—Convenience For Visiting Companies—Some of The Attractions Booked For the Coming Season.

On the first of next month the Myers Opera house will pass from the control of William H. Stoddard, and Peter L. Myers, who successfully conducted the theater for several years during which it was a credit to the city, will assume whole charge of the house. The change will be a gratifying one to our citizens generally, and more especially to those who appreciate dramatic and musical art.

Preliminary to the change in management extensive alterations and repairs are in progress in the opera house. A leaky roof has damaged the frescoes in many places, and all traces of these disfigurements are being removed. The house is being thoroughly cleaned from pit to dome. Wherever the upholstery and tapestries show signs of wear they are being touched up or replaced. New carpets are being laid where the feet of patrons have worn the old ones threadbare, and woodwork is being repainted throughout.

#### Improvements on the Stage

Back of the stage the improvements are most noticeable. The dressing rooms that had been allowed to go to ruin are being plastered, papered or decorated as need suggests, and the accumulated debris of years is being removed from the nooks and crannies into which it has been swept by careless janitors. A scenic artist from Chicago, one of the best in his profession, has been engaged to touch up the scenery. A new arrangement has been made for the storage of all the house scenery whenever visiting companies bring their own stage settings so that it will be out of the way, leaving a clear stage for the performing company. A new and commodious property room has been set apart for visiting attractions, while the "props" belonging to the house are being put in first class order. No labor or expense is being spared to make the house all that it should be and a credit to Janesville.

#### Bookings for the Season

But Manager Myers has not been content with improving the auditorium alone. He has set about the work of improving the entertainments that are to be given during the coming season. His lease of the house was secured at too late a date to enable him to secure his pick of the traveling attractions but he has secured many that will prove to be excellent drawing cards. On the opening night Aug. 30, Lincoln J. Carter's great spectacular production "The Heart of Chicago," will be presented with a scenic splendor never seen in Janesville before. The play has had a successful run in many of the eastern cities and is pronounced one of the most successful of modern dramas. This will be followed by the comic opera, "El Capitán" one of the gems of recent productions. In the line of farce comedies Hoyt's "A Contented Woman" will be seen and "What Happened to Jones" will occupy the boards for a brief season. Oliver Scott's minstrels, a company of genuine southern darlings, will appear. This company is the best of its class and received the most flattering praise.

### MANILLA IS A PROBLEM

Whether to Occupy It Or Not Creates Dissension

SOME FAVOR TURNING IT OVER TO GREAT BRITAIN

Washington, Aug. 8—Special—The disposition of the Philippines promises to be the most perplexing problem the United States will have to solve in the settlement of the difficulty with Spain. It is insisted here that the islands shall not be returned to Spain, but there is a diversity of opinion as to the expediency of retaining them. Some are inclined to turn them over to Great Britain as a recompense for her good offices in preventing the formation of an anti-American alliance in Europe, but the preponderance of opinion is that a nominal suzerainty should be established over the islands by this country, leaving to the future the ultimate destiny of the islands. Under the president's peace conditions it will be possible to hold this question in abeyance for a time, and this course will doubtless be pursued.

#### Looking For a Deserter.

Lexington, Ky., Aug. 8—Special—A squad of men has been sent from Camp Corbin to Morgan county to capture Laban Lewis, who recently deserted from the camp, dead or alive. Lewis is said to be a bad man, and the local authorities refuse to attempt his arrest.

Santiago, Aug. 8—Special—Orders have been given to embark 1,500 infantry on the steamer Vigilancia which will sail for the United States. The Society of the Army of Santiago has been formed with General Shafter as permanent president and Major Sharpe secretary.

UNWHOLESOME TOYS.

According to the usually accurate and well-informed Washington correspondent of the New York "Sun," the officials of the American and German governments (Washington and Berlin) are exchanging diplomatic notes in an effort on the part of the Washington administration to secure a reversal of the decrees promulgated at Berlin prohibiting the importation into the German empire of food products of the United States.

It is said that the United States government has at last determined to meet the German edicts of prohibition with similar acts, based upon analogous grounds. Germany says American food products are forbidden to enter the empire because they threaten the health and interests of the people of that country. The chemists of the Agricultural Department are now engaged in analyzing paints and colorings on all toys imported to this country from Germany with a view to ascertaining whether or not poisonous matter forms a part of the coloring compound, a general impression prevailing that such is a fact. If they determine that the toys are dangerous for children to handle their further importation will cease. The United States absorb about all the surplus production of Germany in the matter of toys and if the makers are cut off from this market it will prove a serious blow to a large number of people there whose livelihood depends upon the sale of their handiwork in this line.

Should Germany continue her unwise course regarding the importation of our food products, it is quite certain that a degree of unwholesomeness such as to justify exclusion will be developed in connection with many other articles which Germany sells to the United States. If this plan does not accomplish the desired result there remains the retaliatory clause of the Dingley law with which to bring up Germany with a round turn. When America shall have retorted its little affair with Spain time will be found to look after several matters which are for the present on the waiting list.

THE USE OF SHODDY.

Under the Dingley tariff bill, better clothing is being furnished the consumer. The Textile Manufacturers Journal says that there never was a time in the history of the woolen industry of this country when the consumption of shoddy was as great as under the Wilson bill. Contrary to every contention of the free wool advocate, the consumption of shoddy increased while the consumption of wool decreased. The reason for this seeming contradiction is obvious. A narrow home market, made doubly so by excessive competition from abroad, labor idle and not in position to pay prices for goods, the country poor and only meagerly employed, were forces which operated to create a demand for the lowest kind of stuff conceivable. The imports of wool which a contemporary places before its readers have no bearing upon the issue which it has raised, for the large imports of 1897 were stimulated by the speculation promised in the re-imposition of the wool duty. The imports do not in any sense indicate the consuming demand for wool. The country is using a large quantity of shoddy today, and it will continue to use a large quantity until it gets beyond the fatal influences of the Wilson bill.

English papers predict a great wave of prosperity in America after the war ends. They say Cuba will give employment to a vast amount of capital, and the stimulus to industry there will react upon the United States. The investments in Cuba, Puerto Rico and the Philippines will particularly benefit railways.

The Janesville baseball players can hardly claim that they were beaten by "way that were dark," even if the Page Fence Giants were all colored men.

There was one point on which the delegates were unanimous, however—

Janesville is one of the best convention cities in the country.

How did the result suit you this time?

Our Aristocracy.  
"They're not in the same set with us—oh, dear, no."  
"Indeed?"  
"Oh, not at all. We're a much older family, you know?"  
"Yes?"

"Yes, certainly. You see, their grandfather was in trade, while all the money in our family was made by our great-grandfather."—Chicago Post.

Wouldn't Marry for Title.  
"You wouldn't marry for title, would you?"

"Of course not. The girl who marries for anything but love is a fool. I don't mind saying that a man will have to have a title before I can love him."  
Thus he saw his hopes disappear in the gloaming, even as many another has seen them.—Chicago Post.

A Post Prandial Speaker.  
"Gentlemen," said the after-dinner speaker, "gentlemen—I am totally unprepared to—er—to—reply suitably to the toast which has been assigned to me this evening; but—"  
"Good! Good!" cried the enthusiastic audience, and with such manifest sincerity that the speaker sat down.—Harlem Life.

Not Her Heart.  
He—Do you think Styles and his wife life happily?  
She—I'm sure of it.

"Well, she always seems to look uncomfortable when she's with him."  
"That's not her husband makes her look that way; it's her boots."—Yonkers Statesman.

Gives Others Pains.  
Doesn't Mrs. Plumlett's daughter take great pains with her piano lessons?" remarked Mrs. Potts, listening to the sounds coming up from the flat below.  
"Gives," thoughtfully answered Potts, "gives is the word I should use."—Up to Date.

PUTTING ON AN IMPROVED ASPECT

[Continued from page 1]

wherever it has appeared. Tim Murphy, the inimitable Irish comedian, is also booked, as is John Dillon, the veteran comedian who has no superior in his line in the United States. The present in Mr. Dillon's last season on the stage and he will doubtless draw crowded houses. The Bostonians Will Be Here

Negotiations are in progress and are about completed for the appearance of the Bostonians, the best opera company in America. They will be here but one night, and will present one of their best operas. Manager Myers has been compelled to give them the largest guarantee ever given to any company that has visited Janesville. The organization is a strong one, however, containing many of the most popular artists in the United States, and Mr. Myers is confident that his efforts will be appreciated by citizens generally. This will doubtless be the gala musical event of the season here, and will attract to the opera house everybody who is anybody. The Janesville performance will be the only one night stand played by the Bostonians during the season, and the engagement was obtained as a special favor. Only Good Shows Coming.

Negotiations are now in progress for attractions of a high class to fill dates later in the season. These cannot be announced at present, as the dates have not been definitely fixed. Some of the best of eastern attractions are coming this way, and an effort will be made to induce them to visit Janesville. But this city has a bad reputation among dramatic managers. So many poor shows have come here that amusement lovers are shy of those that possess much merit. This reputation will have to be overcome, and Manager Myers has set about the task of overcoming it with all the vigor of which he is possessed. He has determined that he will not give a poor show even though he is obliged to keep the opera house doors closed. He will give the people the worth of their money on every occasion, even though he may be compelled to wait for a complete restoration of public confidence for his reward.

Good Music Promised.  
One of the best features of the opera house performance under Mr. Myers' management will be the orchestra. This will be composed of eight pieces, under the direction of Prof. Thiele. Each of the musicians will be especially selected for the work, and will be able to read and play the most difficult scores at sight. This is an advantage of great importance, as many of the companies now on the road have music especially written for and adapted to their productions, and that form an essential feature in the performance. Better Things to Follow.

The coming theatrical season in Janesville promises to eclipse all former seasons, but will be only a foretaste of what is to come. As before stated the transfer of the leasehold of the house was completed at a late date to permit Manager Myers to secure more desirable attractions he had in view. He will not labor under the same disadvantage next season, but will be on hand early and book the best companies in the country that can be induced to come to Wisconsin. He has in contemplation an alliance with a syndicate of western managers covering the states of Wisconsin, Iowa and Minnesota, who are able to command the best the country affords by offering a circuit of good towns in which a paying business may be relied upon. This circuit embraces a number of cities much larger than Janesville, and having a reputation for fastidiousness in the way of amusements. This arrangement will assure the Janesville theater goers the best line of amusements ever seen here—a consummation devoutly to be wished.

A Funny Little Cub Bear.  
In St. Nicholas Meredith Nugent has "Leaves from the Sketch Book of an Animal Artist." Mr. Nugent says: The funniest model in my experience was a cub bear; and during his visit to the studio we laughed more than we worked. While his antics were very amusing, it was the indescribably funny expressions he always wore which kept the studio in such a state of hilarity. "Unbeknown" to us, one day he got out; and, walking along on his hind legs in a ridiculous shuffle, effectually blockaded the hallway, until we came to the rescue of the frightened people. It was not the only time he fell into trouble. When we first came into possession of little Bruin we sent the studio boy with a large market basket to bring the treasure up-town. The boy was cautioned to be very careful of his charge—in fact, he was cautioned too much. On the elevated railroad train that boy fairly ached to get a look at the bear, and so opened the lid the first bit, and peeped in. Instantly the animal thrust his whole head out, to the great astonishment of the lady passengers, among whom he created a small panic. It is needless to say that both bear and boy were put off at the first stopping place.

### A SNOWDROP.

O wonderful, immaculate,  
White herald of the spring,  
No winter can be desolate  
That bears so sweet a thing!  
Soft, snowy petals striped with green,  
Deep hidden heart of gold,  
The world that hath such beauty seen  
Can never more be old.

No shades of rusty light suffuse  
Thy petals cool and pure,  
The rosiest, chill autumn dews  
Alone thy lips allure.  
Thou art not frank'd with purple stains,  
Nor fire of scarlet bright,  
But silver'd by the silvery rains  
And touched with verdant light.

And I, who once the roses lov'd,  
Allegiance bring to thee,  
Well knowing thou wilt never be prov'd  
So wonton or so free;  
But, clasp'd in the wild wind's breath,  
Wilt lend a beauty o'er to death  
When thy pure life is done.

## WILL STAY UNTIL WINTER.

Volunteer Army Not to Be Disbanded.

### PLANS OF WAR AUTHORITIES.

Liberal Furloughs Will Be Given to the Soldiers, but the Regiments Are to Be Kept Intact in the Camps Until After Congress Meets.

Washington, Aug. 8.—From inquiries which reach the war department it is evident a widespread opinion prevails that a rapid disbandment of the volunteers will follow the close of hostilities. This is not well founded. There is no probability that a single organization will be mustered out before winter. A liberal policy in regard to furloughs will be observed. Sick and invalid soldiers will be encouraged to take thirty days' leave and go home but the army in its present entirety will be maintained until the senate ratifies the treaty of peace, which event, from present indications, will not occur until December or perhaps January.

Thus far the fatalities among the troops at Camp Alger have numbered 39. This is not considered a great loss in an army of nearly 30,000 men during the three months the men have been in the service.

The army officers of course deplore the death of every one of the thirty-nine whose lives have gone out, but some losses are to be expected in an army so large as Gen. Graham's command in view of the changed conditions encountered by the men when they entered the service.

#### McDuffie Is Given the Race.

Philadelphia, Aug. 8.—The twenty-five mile paced race between McDuffie and Michael, which was ridden Saturday at Willow Grove bicycle track, was awarded to McDuffie by Referee Uhler. Michael led at the end of the twenty-five miles but the referee withheld his decision, McDuffie's manager having lodged a protest at the end of the third mile that Michael had more pace-makers than were specified in the contract. The contract called for thirty-two pace-makers to a side, and after an investigation it was found that Michael had thirty-nine. Under these circumstances McDuffie was given the race.

#### Warming Up in Nebraska.

The issue of the campaign is to be reform in state finances, each side claiming the credit for the efforts in this direction.

#### Russian Backdown Asserted.

London, Aug. 8.—The correspondent of the Daily News at Odessa gives, under reserve, a report that the Russian charge d'affaires at Peking, M. Omaha, Neb., Aug. 8.—For the last two days rain has reached every nook and corner of the state, and many fields of corn that had been given up as total losses are revived. The estimate of the corn yield is placed 25,000,000 bushels ahead of what it was when the drought was first broken.

### Why?

There's many things I wonder why,  
Which no one ever seems to know—  
Why stars stay always in the sky  
And never tumble down below?  
Why grown up people never see  
When they are interrupting me?

Why I am not allowed to play  
With my sister's doll, William John,  
And why the sun sinks down each day  
Directly at seven o'clock?  
And where it lays its shining head,  
And if it likes to go to bed?

Why fairies never come to me  
When my sister's with me in the room,  
And why the earth I don't feel to be  
A princess with a horse and groom,  
And why you never seem to hear—  
Why is the world so very queer?

—William Wilson Gibson in Sketch.

### Longest Fence in the World.

The longest fence in the world is probably that which has just been finished by the Erie Cattle company along the Mexican border. It is 75 miles in length and separates exactly for its entire distance the two republics of North America. The fence was built to keep the cattle from running across the border and falling easy prey to the Mexican cow punchers. Although it cost a great deal of money, it is estimated that cattle enough will be saved in one year to more than pay for it. It is a barbed wire fence, with mesquite and cottonwood poles, and for the entire length it runs as straight as the crow flies.

### Anxious to Get Their Sons Home.

Washington, Aug. 8.—Before the announcement was made that the Santiago troops were to be brought north the secretary of war received several thousand letters a day from distressed mothers and fathers who begged that their sons be sent home from Cuba. Since the announcement that all would be brought back the pleas have changed to telegraphic dispatches asking that their sons be brought home first. The selection of order of bringing home troops has been left entirely to the discretion of Gen. Shafter. The department will not interfere in any way.

## In Railroading...

## Overall & Jacket

Constitute the most conspicuous part of the Engineers and Firemen's wearing apparel.

## The Lightning Jumper and Overall

Are particularly adapted to railroad use. Have you seen them? ? ? ? ?

The Overall has a patent apron, a drawer supporter, button hole for watch chain, closed and over-seamed at side, watch pocket, pencil pocket and suspender fastening.

The Jumpers are cut and made with as much accuracy as a custom made coat. Fitting easy over shoulders, long in length, and contain an improved gusset in the wrist band which positively keeps hot cinders, etc., from working up the sleeve. They are over-seamed where there is any strain, and cut to sufficient fullness to allow for all shrinkage.

The Difference we give in convenience, workmanship and material gives the customer better value for his money than any other make. Railroad men are particularly invited to our store to see these garments. Our salesmen will be glad to try on the garments and show you the greatest thing yet invented for your use.

Repair Department busy cleaning and repairing winter garments. How are yours? You'll find they need something done to them. Bring them in now. Don't wait till the last end of the season and then get them half cleaned and pressed.

## LATE NEWS BY TELEGRAPH.

## SPAIN SENDS HER REPLY.

Will Be Presented to the President Today.

## OUR TERMS ARE ACCEPTED.

Washington Authorities Are Confident That Peace Negotiations Will Be Commenced at Once—Probable Commissioners for Spain.

Madrid, Aug. 8.—After the queen regent had consulted with prominent political men the ministers met last night to approve the answer to the United States drawn up by Premier Sagasta and Duke Almodovar de Rio, accepting the American conditions. In this answer the Spanish government reserves the utmost possible power of discussing details hereafter in hopes of making better terms. There is no ministerial crisis.

Diplomatic circles now believe that the Spanish and American governments will come to a definite understanding.

Senor Castelar, although not attending the councils here, comes out with a straightforward message of peace. Senor Canalejas, who is known in the United States, and an astute lawyer, says the fact of requiring further explanation from the government at Washington implied acceptance of the terms of peace.

On leaving the palace Senor Sagasta said that in the early days of the coming week the government would be able to give the country its definite conclusions.

Public opinion here is for peace and peace at once. That Gen. Woodford is to be one of the negotiators has produced an excellent impression here, where his uprightness and fair-mindedness are highly appreciated.

The bourse boomed Saturday upon the anticipation of peace, and exchange went up several points. It has gone up about 30 points in a week's time.

Madrid, Aug. 8.—The cabinet council terminated after having completely confirmed the reply to the United States, which, it is said, accepts the American conditions.

The reply will be telegraphed to Senor Leon y Castillo, the Spanish ambassador to France, at once, so that M. Cambon, the French ambassador at Washington, will receive it to-day.

The government is fully convinced that the note will be satisfactory to the Washington government and that a suspension of hostilities will be its immediate consequence.

From a well informed source it is learned that, while the answer does not discuss the four bases which the United States makes an essential preliminary to peace, and which Spain accepts without reservation, it points out that in order to avoid the definitive negotiations being in any way complicated by incidents of the war it is expedient to agree beforehand to a suspension of hostilities.

It is reported that Duke Almodovar de Rio, the minister of foreign affairs, and Mgr. Merry del Val, Spanish ambassador to the vatican, will be selected to represent Spain in the negotiations.

The newspapers make no comment on the situation, owing to the strictness of the censorship.

Paris, Aug. 8.—A dispatch from Madrid says: "Spain accepts the United States' conditions of peace."

The Madrid correspondent of the Temps says: "The cabinet council Sunday morning discussed the question of assembling the cortes, but no decision was reached, as the ministers desire to ascertain if the United States considers the approval of parliament necessary to the definite signing of the treaty of peace."

Views of the President.

His Friends Say He Has Become an Enthusiastic "Imperialist."

New York, Aug. 8.—According to a close personal friend of President McKinley, and a man in high official station in Washington, these are the president's views as to the ultimate results of the war:

Porto Rico to become a possession of the United States.

Cuba to be held under a protectorate with a view of ultimate annexation.

Manila and the island of Luzon to pass into the control of the United States as Hongkong is under the control of Great Britain.

One of the Ladrone islands to be annexed to the United States.

So far as Porto Rico and the Ladrone islands are concerned, it is pointed out that the program is fulfilled by the terms of peace with Spain. The same terms prepare the way for the execution of the remainder.

President McKinley's friends say he has become an enthusiastic "imperialist" since the war began, and that he has no fear of the result of the extension of territory.

AN ACT OF BLANCO.

He Issues a Proclamation Giving Freedom to Cuban Prisoners.

Washington, Aug. 8.—News has just reached Washington from Havana of a recent astounding proclamation of amnesty in which Gen. Blanco has made known to the Spanish people of Cuba that Spain had, through the intervention of foreign powers, been forced to the disgraceful issue of suing for peace, and that there would be no more war and no further use for soldiers. He offered a pardon to all Cuban

political prisoners and over 150 were released in Havana.

In explaining Spain's defeat in his proclamation Gen. Blanco informs his credulous readers that Spain, having suffered so much in the present war, could not resist the interference of the foreign powers and go to war with all countries at once, so she was compelled to accede to their dictation and sue for peace.

Havana, Gen. Blanco says, will be given over to the Americans and Cubans and the Spaniards will be forced to evacuate. He assures the soldiers and all Spanish residents who wish to return to Spain or go to other Spanish possessions that they will be given free transportation by their mother country to their destination and will be protected from interference on the part of either Cubans or Americans. He suggests that the Cubans be forgiven and no longer regarded as enemies and no unkind feeling be cherished.

Dewey to Remain at Manila.

Washington, Aug. 8.—Secretary Long announces that Rear Admiral Dewey will remain in command of the Asiatic squadron, because of his acquaintance with the Philippine problem and his general ability. Commodore Howell may return to the European station as commander-in-chief of a strong force. Rear Admiral Sampson will undoubtedly be kept aloft, either in command of the North Atlantic or European station, and the command of the Pacific station go either to Commodore Watson or Commodore Schley.

Durbin to Report to Lee.

Indianapolis, Aug. 8.—Orders have been received by Col. Walter T. Durbin of the One Hundred and Sixty-first Indiana volunteers to report to Maj.-Gen. Lee at Jacksonville, Fla., as soon as possible. The regiment expects to leave here Tuesday. It is reported that Gen. Lee will be made provisional governor of Cuba, and that the One Hundred and Sixty-first will form a part of the army of occupation.

Official List of Deaths.

Washington, Aug. 8.—Gen. Shafter's daily report to the war department of the health of his command at Santiago, as bulletined by Adj.-Gen. Corbin, follows: "Santiago de Cuba, Aug. 7.—Adjutant-General of the Army, Washington—Sanitary report for August 6: Total number sick, 3,681; total number fever cases, 2,638; total number new cases fever, 431; total number fever cases returned to duty, 477."

Western Troops to Move.

Denver, Col., Aug. 8.—Hundreds of people visited the camp of battery A, Colorado volunteer light artillery, at Fort Logan Sunday to say good-by to the men, who will leave for Fort Hancock, N. J., in a few days. The battery consists of 100 men and H. G. Parks is captain. The final destination is unknown, but the men are expected to go to the Philippines, via the Suez canal.

Fight at San Juan Rumored.

New York, Aug. 8.—The Journal prints the following from Washington: "An unofficial report is current here that the bombardment of San Juan has commenced, and that a part of Gen. Miles' forces have been pushed forward toward the city on the land side. Officials at the war and navy departments say they have no dispatches confirming the rumor."

Leaves Captured Town.

Ponce, Porto Rico, Aug. 8.—Gen. Wilson has moved the headquarters of his division from Ponce to Juana Diaz. Gen. Schwan, with the Eleventh regular infantry and two batteries, moved through Yauco toward Maya Guez. Gen. Brooke is moving north from Guayama with 10,000 men.

Spain to Keep Philippines.

London, Aug. 8.—A dispatch to the Daily News from Paris says that the Philippine islands will remain under the suzerainty of Spain. She will not be allowed to cede the honorary supremacy of the islands to another power.

Sick Are Rapidly Recovering.

Norfolk, Va., Aug. 8.—The sick and wounded American soldiers at the field hospital at Fortress Monroe are rapidly recovering. The surgeons in charge are pleased with the progress made.

Fleet Waiting for Orders.

Playa del Este, Guantanamo Bay, Aug. 8.—The fleet is still here intact, awaiting word from Washington.

Condition of the Crops.

Lansing, Mich., Aug. 8.—The Michigan crop report for August says the average yield of wheat per acre, as estimated by correspondents, is: For the entire state, 17.95 bushels; southern counties, 18.16; central counties 17.93; northern counties, 15.57. The figures point to a crop of about 30,700,000 bushels. This is more than the actual yield ever returned, except in 1879, when the total yield was 30,983,340 bushels, and in 1882, when it was 32,568,688 bushels. The crop has been secured in fine condition, and is of excellent quality.

Italy's Course Is Resented.

Colon, Colombia, Aug. 8.—It is understood in local circles that congress is holding a secret session at Bogota discussing the matter of the settlement of the Cerruti claim. The dissatisfaction over the eventual forced settlement of the claim and the consequent drain upon Colombia's resources is beginning to create much bitter feeling throughout the country. Even the Italian colonies at Barranquilla and other ports are resenting the actions of the Italian government.

Anarchists at Work in Spain.

Madrid, Aug. 8.—El Epoca says the police are investigating an anarchist plot against the life of a high political personage which was to have been carried out upon the occasion of the anniversary of the assassination of Senor Canovas del Castillo.

Headquarters Are Changed.

South Bend, Ind., Aug. 8.—The North American Turnerbund executive committee had a meeting here Sunday, with a large attendance. It decided to change the headquarters from St. Louis to Indianapolis.

## GENERAL ADVANCE BEGUN.

American Army on Its Way to San Juan.

## THIRD ILLINOIS IN ACTION.

Gen. Miles Sends a Dispatch to Washington—Rumor That Spanish Officers of Minor Rank Refuse to Defend San Juan.

Ponce, Porto Rico, Aug. 7, via St. Thomas, D. W. I.—A general advance of the American forces began this morning. The remainder of Gen. Ernst's brigade, constituting the advance center, supported by two batteries, moved out at 6 o'clock and a part of the Eleventh Infantry of Gen. Henry's division started to the left toward Adjuntas. Troop A of New York, the Philadelphia city troop and Troop H of the Sixth regulars are conveying Gen. Brooke's transportation column along the road through Salinas to Arroyo.

Gen. Miles has sent the following dispatch to Washington:

"Ponce, Aug. 6.—To the Secretary of War, Washington: Gen. Brooke reports that Hains' brigade, the Fourth Ohio and Third Illinois, captured Guayama yesterday. There was a slight skirmish with the enemy in and about the town. Enemy's strength estimated at about 500; not ascertained if any of them were regulars; resistance not strong."

"Private John O. Corbin wounded below the knee; C. W. Riffe, both legs below thigh; T. W. Wolcott, right foot; none serious; all Fourth Ohio. One Spaniard killed, two wounded, so far as known."

Wire communication with Gen. Brooke, on the right, has not yet been established.

Col. Rice of Gen. Miles' staff will probably be assigned to the command of the Sixth Massachusetts.

United States Consul Hanna has received information that the foreign consuls at San Juan de Porto Rico, the capital of the island, advised the Spanish authorities to surrender the island to the American troops. The Spaniards, however, in reply, announced that they were resolved to fight. Thereupon the consuls notified the Spanish commander, Capt.-Gen. Macias, that they would establish a neutral zone between Bayamon and Rio Piedras, in which to gather the foreign residents and their portable property, in order to insure their safety in the event of a bombardment of the place by the American forces. The consuls sent a similar notification to Gen. Miles.

In spite of the brave talk, it is understood that the Spanish officers of minor rank have refused to fight or imperil their lives in the defense of San Juan.

IN HONOR OF BISMARCK.

Largely Attended Memorial Services Held at Berlin.

Berlin, Aug. 8.—A Bismarck memorial service, organized by the Berlin Bismarck committee, was held Sunday in the Royal opera house. There was a large attendance. The ceremony was impressive and worthy of the occasion. The walls and balconies of the auditorium were draped with black.

After the funeral march—Beethoven's Eroica Symphony—had been performed curtains were drawn aside, disclosing a laurel surrounded bust of Prince Bismarck. In front of the pedestal upon which stood the bust was a golden wreath, trimmed with mourning ribbons. Ernest von Wildenbruch recited a poem, entitled "Our Bismarck," and the chorus of the opera sang "Wie Sie Saft Rufen."

Privy Councillor Kahl, an old friend of the dead statesman, then delivered an oration, in which he referred to Prince Bismarck as "the conscience of the German people, a heritage ever defended with our blood."

On the conclusion of the oration the assembly arose and sang Arndt's hymn, "Gott Nun Hin und Grabt Mein Grab." The services were concluded by the rendering of a funeral march by Wagner.

Turkey's Reply to America.

Constantinople, Aug. 8.—The porte on Friday replied to the American demand for compensation for losses sustained by American subjects during the Armenian massacres. The reply is the same as that given to other powers, repudiating all responsibility for the losses.

Plunge Through a Bridge.

Utica, N. Y., Aug. 8.—Sunday night two cars on the Belt line trolley road went through Bradley's bridge, near Whiteboro, and seventeen passengers were precipitated into the Erie Canal. Miss Mary Brady of this city was the only person killed. Several were injured.

Anarchists at Work in Spain.

Madrid, Aug. 8.—El Epoca says the police are investigating an anarchist plot against the life of a high political personage which was to have been carried out upon the occasion of the anniversary of the assassination of Senor Canovas del Castillo.

Headquarters Are Changed.

South Bend, Ind., Aug. 8.—The North American Turnerbund executive committee had a meeting here Sunday, with a large attendance. It decided to change the headquarters from St. Louis to Indianapolis.
